

# My Wonderful Mom

By George Liu

I really love my mom and enjoy spending time with her. My mom is a preschool teacher and likes teaching young kids Chinese.

My mom is afraid of animals and does not like pets, especially dogs. She also likes to bake and make sweet treats, such as rice cakes, cookies, cakes, granola bars and more.

My mom's favorite food is dumplings and taros. For sweets, she would choose dark chocolate because she is not a fan of candies. Another reason she likes dark chocolate is because it is not too sweet like other types of chocolate, and it comes with a bitter taste, which makes it

special.

My mom is caring and selfless. She always encourages me to overcome my weakness. She also helps me solve difficult problems or challenges. These are the reasons why my mom is wonderful and to me, she's the best!
